

# NATURAL RESOURCES

With access to some of the world’s largest untapped reserves of oil and gas, Swift Current is the ideal location for everything from extraction to research and development.

## FUEL GROWTH WITH NATURAL RESOURCES

- Saskatchewan is the only place on earth that produces crude oil, natural gas, uranium, biofuels and wind and hydro power
- The 6th largest onshore oil producer in North America, Saskatchewan is also the 2nd largest oil-producing province in Canada
- 36% of Canada’s primary energy production comes from Saskatchewan
- Canada’s energy industry has already attracted \$182 billion in foreign investment
- With 17.25 billion barrels of crude oil reserves, Canada is the 5th largest producer of oil and natural gas in the world
- Canada is the 7th most attractive investment jurisdiction globally (Fraser Institute: Global Petroleum Survey 2017)
- With direct access to the U.S. market, Swift Current is positioned along Canada’s primary transportation corridor

## SWIFT CURRENT – AT A GLANCE

- Ranked No. 1 entrepreneurial city in Saskatchewan
- Immediate market of 55,000 people with 6 million more within an 800-km radius
- Low municipal tax structure
- Training programs customized to prospective employers’ needs from the Great Plains Regional College

## GO FURTHER WITH SWIFT CURRENT

### ESTIMATED OIL & GAS RESERVES OF 2.7 TRILLION CUBIC FEET

Related fields include exploration, extraction, processing and refining

### 85% OF SOUTHWEST SASKATCHEWAN’S 30 BILLION BARRELS REMAIN IN THE GROUND

Prime opportunity for enhanced oil recovery methods

### ACCESS TO UNDEVELOPED LAND IN NATURAL GAS-RICH ENVIRONMENTS

Reserves estimated at a min. 25-year supply

### JURASSIC SHAUNAVON FORMATION HAS PRODUCED OIL FOR OVER 60 YEARS

With nearly 4,000 well completions and 500 million barrels in total production
